

APOSTOLIC CHRISTIAN CHURCH BIBLE LESSON TEACHER OUTLINE

Third Quarter, 2005

THEME: BOOK OF HEBREWS

INTRODUCTION: In previous quarters of this cycle, some of the non-narrative portions of the New Testament have been interwoven with the book of Acts. The book of Hebrews does not lend itself to this kind of treatment and will be studied as a separate unit. The key word of the Epistle is “better” as Christ is shown to be superior to anything offered by the Mosaic Law. In teaching the lessons for this quarter, be sure to stress the overall plan of the Book, as well as the various passages. The earnest student will find great rewards for delving into the rich treasures found in this book.
